16.4ft 5-Meter 5050 RGB Chasing Function Strip Lighting and Controller

Our chasing 5050 RGB chasing LED Strips can be cut to size the same way our other strips can at our cut lines but instead of a four wire hook up it consist of a three wire hook up. It consists of power, ground and data wire.

When cutting and soldering wires make sure pattern, arrows are facing the same way if one strip pattern arrow is backwards the chasing feature and the strips would not function properly and would be stuck on one color only. Wires from module are as follows Red is 12volts, White is Ground, Green is data for the patterns.
